

## **AMERICAN HEALTH BENEFITS PLAN** **the Guiding Principles**

- **Universal:** **AHBP** will provide health insurance to all Americans.
- **Continuity:** Those who have coverage now should not have their benefits reduced to cover everyone
- **Shared Responsibility:** Individuals, employers, the government, hospitals and insurers all have a responsibility to ensure an efficient, affordable healthcare system.
- **Affordable:** The plan must be affordable for individuals and employers.
- **Choice:** Provide Americans a choice of their health plan.
- **Portable:** If you leave an employer or change states, you can take your plan with you.
- **Preventative:** **AHBP** must promote healthy living and wellness.
- **Healthcare Reinvestment:** 90 cents on every dollar of the insurance premium will be reinvested into healthcare.
